Clouds & Redirectors

# S-Wave

## Clouds & Redirectors

The S-Wave redirector/diffuser is designed to meet the specific needs of complex wave distribution. Available in any curve specified by the acoustician or designer, the S-Wave provides limitless possibilities in both acoustic and aesthetic requirements.

Available in both wood and composite finishes, the S-Wave is both beautiful and functional. The S-Wave is available in both wall mount and ceiling mount versions.

Contact our team to discuss your design requirements.
